*Required reading / key to calendar abbreviations:*

BT = Nietzsche, *The Birth of Tragedy*  
 GS = Nietzsche, *The Gay Science*  
 BGE = Nietzsche, *Beyond Good and Evil*  
 GM = Nietzsche, *The Genealogy of Morals*  
 NND = Richardson, *Nietzsche's New Darwinism*  
 NGM = Conway, *Nietzsche's On the Genealogy of Morals*

Note: Nietzsche books reading assignments in section numbers, not pages! Richardson and Conway in pages!  
COURSE DESCRIPTION: Nietzsche developed a philosophy that interwove three themes: 1) bodily "drives" underlying consciousness; 2) the origin of morality; 3) reflections on the meaning of Darwin's work. We will read four major works of Nietzsche with an eye to those elements.

#### COURSE CONTENT:

*Goals, objectives, and learning outcomes:* at the conclusion of the course, students will be able to (1) identify the key concepts and critical issues in Nietzsche work on the relation of the body and consciousness; the origin of morality; and Darwin's theory of evolution by natural selection (measured by essay examination at midterm and in finals week); (2) conduct research into and develop a critical relation to selected works in the secondary literature in ONE of these fields (measured by a 2000 word term paper on a topic in one of these fields); (3) communicate their findings to classmates (measured by a 10 minute multimedia presentation during last two weeks of classes).

ACADEMIC CONDUCT STATEMENT: students will be provided with the University and Honors College plagiarism statement.

ATTENDANCE POLICY: students will be expected to attend each class meeting and to have posted a reaction to the reading on the course bulletin board before the class.

GRADING POLICY: standard criteria for letter grades will be used (A = excellent; B = good; C = competent; D = poor; F = unacceptable).

1. Two essay examinations: 20% each for a total of 40%
2. Term paper of 2000 words due in finals week, with preliminary steps required (paper is to be preceded by a thesis statement and outline due in week 10, an annotated bibliography in week 11, and a rough draft in week 14): 40%
3. Final presentation: 15%
4. Questions during final presentations: 5%. Students will take notes during presentations and will be prepared to pose a question if called upon. Students will write up 2 copies of their questions for next class period after presentation; one copy to student and one to professor.
5. Class participation: no set percentage, but outstanding work will be taken into account for borderline grades.

ENGLISH 2000: the course design and assignments fulfill the requirements for English 2000 in terms of research requirements, use of writing-to-learn strategies, technology use, and collaborative projects.

MULTIPLE AREAS OF GENERAL EDUCATION: This course covers multiple Areas of General Education. A student who successfully completes this course receives General Education credit for one of these areas, as determined by the student's degree-granting College. To learn how this course will be applied toward earning a declared major, a student should consult the "Degree Audit Report" for that major, available from the student's degree-granting College. In some cases, a student can request to have a course apply specifically to one area rather than another. A student who has any questions regarding this process should consult with his or her degree-granting College.
